Includes

- ✓ Unlimited scanning
- ✓ SIM card
- ✓ Support for Hass avocados at ambient temperature (performance on other types or temperatures may be limited)
- ✓ 1 year Warranty and Service; extension to multi-year coverage available

THREE REASONS TO PUT THE AVOCADO SCANNER IN YOUR STORES

✓ TRUST & SERVICE

Consumers struggle to assess the ripeness level of avocados. The Avocado Scanner provides real-time, accurate feedback, helping them confidently choose the avocados they like. This increases trust in your produce quality and turns kitchen disappointment into a thing of the past.

€ SALES INCREASE

When consumers can confidently determine the quality, they're more likely to purchase their avocados without hesitation. This increase in trust reflects positively on the whole fresh produce category.

🌿 FOOD WASTE PREVENTION

The Avocado Scanner prevents unnecessary squeezing that damages fruit. This means fewer damaged avocados during quality checks, less waste from bruised produce, and happier consumers who no longer take home the wrong avocado and let it go to waste.
